

# Inter Row Rotary Tiller

**Saves times, high field capacity covers 1.5 acres per hour**

**Reduces Operational costs, inter-cultivation and earthing up in single operation**

**Increase yield thus More profit**

**Inter Row Rotary Tiller** is used for stirring and pulverizing the soil or weeding. It can be attached to any tractor in such a way that ensures hassle-free handling, low maintenance and longer operational life. This can be used for Sugarcane planting, orchards, nurseries etc.

## Advantages

- Farm implement for stirring and pulverizing the soil or to remove weeds and to aerate and loosen the soil after the crop has begun to grow.
- Mostly used by farmers of vegetables, farm owners, nurseries and sugarcane producers.
- Provides perfect tillage operation & Levels the field perfectly even.
- The depth of the tilling can be adjusted as per requirement of the soil.

**Four Times Faster**  
as compared to traditional practice

# Inter Row Rotary Tiller

## Traditional way

First operation

Second operation

## Shaktiman way

Single operation
