

ROTARY MULCHER

SHAKTIMAN Rotary Mulcher is robust & reliable implement to get rid off from crop residues like paddy straw, sugarcane trash, Maize stem etc. It is one of the best machine of its kind. It cuts and shred farm residues in small pieces and spread them in the field. The shredded particles work as a bio-mulch specifically for ratoon sugarcane and zero tillage sowing. It

gets decomposed in short span of time and converted in to green manure. Which improves overall organic structure & fertility of soil. Built with fine quality components like all other **SHAKTIMAN** products, this machine yields higher productivity and in turn ensure great satisfaction.

World's Largest Manufacturer of Rotary Tiller

Drive Transmission Type: Belt Drive

Tractor Power Transmission Shaft Type: Standard P.T.O

The company reserves absolute rights to modify the specifications of machine and components therein without any prior notice.

*Accessories shown are not part of standard equipment.

Advantages

- It shreds any type of farm residues in single operation and converts it into green manure.
- High quality materials & its design ensure long life.
- Free moving gear box offer safety to tractor.
- Its rear roller with height adjustment ensure uniform and compact mulching layer.

Features

- Suitable for Cat I & II linkages
- 4 Belt Drive for long life of belts
- Standard PTO rpm-540

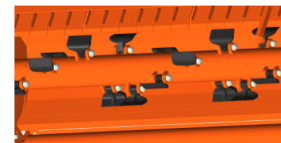

Accessories & Fitment

Standard

- "Y"Blades and Straight Blades
- P.T.O. Shaft Guard
- Tool Kit

Optional

- Hammer Blade
